ATX™ PRD Series 16, 32, 80 and 125 Amp Plugs and Sockets

Flameproof

ATEX:
Zone 1 and 2 – 21 and 22
II 2 GD or II 2 G
IP66 or IP55 – IK10

Applications

- Hazardous areas where plugs and sockets are used with portable or stationary electrical equipment such as lighting and heating systems, conveyors, motor starters, air-conditioning appliances, compressors and pumps.
- Ideal for hazardous areas where weatherproof and robust equipment is required.
- Ideal for hazardous areas Zones 1, 2, 21 and 22 in the oil and gas industry; such as refineries, pipelines and offshore sea-rigs.

Features

- General — 16 A:
  - — Flameproof seal with cylindrical spigot joint.
  - — Automatic disconnection of the poles by patented dual-safety device, which ensures the following once the plug is removed from the socket outlet:
    - – Automatic and simultaneous disconnection of each phase in a flameproof chamber
    - – Disconnection, once power is off, of the pins in the second flameproof chamber
  - — Cover can be padlocked – 1 padlock diameter 5 mm (0.20 in), length 45 mm (1.77 in).
  - — Wall sockets and flush sockets incorporate a safety device that only accepts plugging of ATX plugs which are certified for use in hazardous areas.
  - — Plugs can be used with IEC 60309-2 compliant industrial pin socket outlets in non-hazardous areas.
- General — 32 A:
  - — Flameproof seal with cylindrical spigot joint.
  - — Mechanical interlocking device ensures:
    - – Disconnection takes place within the flameproof chamber before the plug is removed from the socket outlet
    - – The plug cannot be removed when energized
  - — Straight handle placed on the plug for use with IEC 60309-2 compliant industrial pin socket outlets in non-hazardous areas.
- General — 80 A and 125 A:
  - — Interlocking mechanical device which prevents:
    - – The switch from closing until the plug is fully inserted into the wall socket
    - – The plug from being removed until the switch is off
  - — Socket outlet supplied with a load break isolating switch ensuring disconnection with power on.
  - — Switch handle can be padlocked in the ”off” position (3 padlocks).
- Wall Sockets — 16 A:
  - — 2 x M20 threaded cable entries (1 at the top, 1 at bottom).
  - — Supplied with one M20 plug.
  - — Connection on 2 x 4 mm² (0.003 x 0.006 in²) terminals.
  - — Earth terminals: internal and external, with 4 mm diameter screws.
- Wall Sockets — 32 A:
  - — 2 x M25 threaded cable entries (1 at the top, 1 at bottom).
  - — Supplied with one M25 plug.
  - — Connection on 10 mm² (0.016 in²) terminals.
  - — Earth terminals: internal and external with 6 mm diameter screws.
- Wall Sockets — 80 A:
  - — 1 x M32 threaded cable entry (on the top side).
  - — Connection via 8 mm (0.32 in) diameter lug terminals (not supplied).
  - — Internal earth through 35 mm² (0.054 in²) connection and external earth through 6 mm (0.24 in) diameter screws.

16 Amp Plug and Socket

32 Amp Plug and Socket

80 Amp and 125 Amp Plug and Socket

- Wall Sockets — 125 A:
  - — 1 x M50 threaded entry (on the top side).
  - — Connection via 8 mm (0.32 in) diameter lug terminals (not supplied).
  - — Internal earth through 35 mm² (0.054 in²) connection and external earth through 6 mm (0.24 in) diameter screws.
- Plugs — 16 A:
  - — 1 cable entry through integrated M25 cable gland
    - – 9 to 12 mm (9 to 12 in) diameter for the 2P+E plug
    - – 12 to 15 mm (0.47 to 15 in) diameter for the 3P+E plug
    - – 15 to 17 mm (0.59 to 0.70 in) diameter for the 3P+N+E plug
  - — Connection on 2.5 mm² (0.004 in²) maximum terminals.
- Plugs — 32 A:
  - — 1 cable entry via integrated cable gland diameter 17 to 22 mm (0.70 to 0.87 in).
  - — Connection on 6 mm² (0.009 in²) maximum terminals.
- Plugs — 80 A:
  - — 1 cable entry via supplied cable gland diameter 18 to 28 mm (0.71 to 1.1 in).
  - — Connection on 16 mm² (0.025 in²) maximum terminals.
- Plugs — 125 A:
  - — 1 cable entry via supplied cable gland diameter 30 to 36 mm (1.18 to 1.42 in).
  - — Connection on 35 mm² (0.054 in²) maximum terminals.

Standard Materials

- 16 A socket outlet body and socket: gray painted marine grade aluminum alloy
- 32 A socket outlet body: gray painted marine grade aluminum alloy body
- 32 A socket outlet flush socket: cast iron
- 80 and 125 A socket outlet body and socket: painted cast iron with marine anti-corrosion treatment
- Plugs: gray painted marine grade aluminum alloy
